Saturday Classes Saturday 3rd October

Class 1A

Adam Brand predatory towing Inflation and fabrication of tow, recovery and hazmat invoices has become big business. With increasing frequency, towers are holding everything from heavy equipment to automobiles hostage, while demanding payment of unreasonable invoices. Storage continues to accrue and insurers are regularly confronted with difficult choices to pay or fight. This presentation will outline ways in which to identify suspect recoveries and inflated/fraudulent invoices and provide strategies to investigate, mitigate and litigate these disputes.

Mr. Brand has extensive trial experience before state and federal courts in complex coverage litigation, automobile, commercial and homeowner fraud and arson cases, as well as medical provider, bad faith, and extra-contractual liability matters. Mr. Brand is actively involved in the insurance industry's education efforts and has served as a panelist and lecturer at seminars and conferences sponsored by international, national, and local insurance organizations.
